

Mama Blue

Limited Edition

Photographed in the legendary Mala Mala Game Reserve of South Africa, *Mama Blue* captures a rare and unforgettable moment between predator and protector. While her three cubs enjoyed a hard-earned meal nearby, this remarkable leopard mother paused for only a brief second to lock eyes with my lens.

That stare was neither aggression nor curiosity. It was vigilance. A mother's instinct to protect what matters most.

Leopards are among Africa's most elusive and powerful predators, and encounters like this are exceptionally rare in the wild. The striking monochrome presentation emphasizes every detail of her piercing gaze, powerful markings, and quiet confidence, creating a timeless fine art wildlife portrait.

Available exclusively as a museum-grade acrylic print, *Mama Blue* is offered as a limited edition release through SLG.Art, honoring one of the most memorable wildlife encounters of my photographic journey.
